

**THERE ARE SO MANY WAYS TO GO GREEN.
SOME EVEN INCLUDE STYLE AND COMFORT.**

These days people in Rocky Mount are doing things to be less wasteful and more environmentally responsible. Fortunately, there is another way to do right by our planet and do it with comfort and style- Natural Gas. With Natural Gas, you will enjoy precise temperature control in the kitchen, instant hot water in the bathroom, and a beautiful fire at the flip of a switch. But perhaps the most beautiful thing about clean burning Natural Gas is how it can reduce your carbon footprint by up to 60%. To learn more, visit ComfortableResponsible.org or utilities.rockymountnc.gov.

For the installation of Natural Gas, please
contact Jessica Williams at (252) 972.1269 or
